

Staff Agreement for Internet Unblocking

I, _____ understand that I will have access to all sites on the Internet. I will not be accessing sites that are inappropriate for an educational setting. I also understand that I need to take all precautions as to not allow any students on my computer, because they would have open access to the Internet. If something inappropriate comes up on my computer while using the Internet I will immediately close it out and report the incident to my principal. If the Internet unblocking right is abused by me, my signature below indicates my understanding that disciplinary action will be taken, which may include termination of employment.
